Proposed Borrisbeg Renewable Energy Development

Dear Householder,

I hope this letter finds you well.

I am writing as a representative of Enerco Energy, an Irish-owned renewable energy developer, based in Lissarda, near Macroom Co. Cork. We are exploring the potential of a renewable energy development in the area of Borrisbeg and adjacent townlands, which we have identified as being a potentially suitable location for a development of up to 10 no. wind turbines.

We are making initial contact with all dwellings identified within approximately 2km of the proposed site. This letter is intended to inform you about the proposed project and introduce you to the company. Ordinarily, this initial introduction would be completed by way of calling to you in person, however, to ensure we engage with people in a safe and compliant manner, we have opted to write to you first. It is intended to continue this approach in the short-term and we hope that it will evolve to safely meeting with the community in person in accordance with public health guidance.

Along with this letter, you will also find a map and leaflet enclosed. The map illustrates the area which has been identified as being potentially developable, while the leaflet provides an overview on Enerco Energy, with some general information about wind energy. Furthermore, a dedicated project website has been set up to inform the wider community about the proposed renewable energy development. (www.borrisbeginfo.com). The website provides an overview of the proposed project including a copy of this correspondence and it will be updated with further information as the project progresses.

I look forward to a return to normality when I can call to meet you in person, but in the meantime, I am available if you wish to contact me with any queries that you may have, either through the contact form on the website, or by the phone or email details listed below.

Yours sincerely,

Aidan Stakelum
